

# GREY ATTACK

Long in the tooth, and ready to bite; these experienced rock gentlemen from Grey Attack are ready to rock your socks off and show those young whipper-snappers a thing or two about kicking ass!

And they're not done yet, not by a long shot....

They are in your face and ready to let loose with kicking songs. Like careering juggernauts the guitars storm out of the speakers and crash into your ears with merciless power.

The punch and thrust of the drums makes your bowels squirm with delight! The lumberjacksque drummer does his best to be environmentally friendly despite the amount of drumsticks he goes through.

The unrelentingly powerful bass lines rock your very soul and urge you to worship the master of Cardiac arrythmia; the audience members loving every masochistic minute of it.

All in all, in your face and ready to go.....Lovingly prepared and served up to you by.....

**Grey Charlez** (Guitars and Vocals), **Wulff Maahn** (Guitar), **Frank Le Gov** (Bass), **JFK** (Drums)
